

ENVIRONMENTALLY RESPONSIBLE ROOF & EXTERIOR CLEANING SOLUTIONS

WHAT IS SOFTWASH?

SOFT WASHING IS THE ALTERNATIVE TO PRESSURE WASHING.

WE USE

WATER-BASED, BIODEGRADABLE CHEMICALS

They emulsify dirt and grime, break down bugs nests and webs as well as kill mold, mildew, algae and bacteria, sanitizing the surface we are cleaning.

SOFT WASHING

-  USES ONLY ONE-THIRD THE WATER OF PRESSURE WASHING
-  LASTS FOUR TO SIX TIMES LONGER
-  DOESN'T ERODE THE SURFACE LIKE PRESSURE WASHING OFTEN CAN
